Transportuhellskort

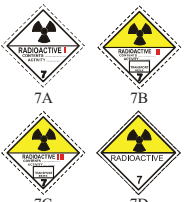

SKRIFTLIGE INSTRUKSJONER I HENHOLD TIL ADR

Tiltak ved ulykker eller nødsituasjoner

Hvis en ulykke eller nødsituasjon oppstår eller er nært forstående under transport, skal kjøretøyets mannskap gjennomføre følgende tiltak dersom det er trygt og praktisk gjennomførbart:

- Sett på bremsene, stopp motoren og slå av strømmen fra batteriet ved hjelp av hovedstrømsbryteren hvis en slik finnes;
- Unngå åpenbare tennkilder og røyking. Ikke slå på elektrisk utstyr;
- Varsle relevante nødetater, gi dem så mye informasjon om hendelsen eller ulykken og de involverte stoffene som mulig;
- Ta på varselvest og sett ut frittstående varselsignaler på en hensiktsmessig måte;
- Ha transportdokumentene lett tilgjengelig for utrykningspersonell når disse ankommer;
- Ikke gå i eller berør utlekkede stoffer og unngå å puste inn gass, røyk, støv og damp ved å oppholde deg i den retningen vinden blåser fra;
- Bruk brannslukkerne til å slukke mindre branner i dekk, bremses og motorrom hvis det er hensiktsmessig og trygt;
- Kjøretøyets mannskap skal ikke forsøke å slukke brann i lasterommet;
- Dersom det er hensiktsmessig og trygt, bruk utstyret på kjøretøyet til å forhindre lekkasjer til vannmiljøer eller avløp, og til å samle opp søl;
- Gå vekk fra ulykkesstedet, råd andre til å gjøre det samme og følg rådene fra redningstjenesten;
- Fjern alle tilsølte klær og bruk tilsølt beskyttelsesutstyr og avhend det på en trygg måte;
