Att.: Head Master of West Coast Technical College, Ms Anne Skjong

Subject: **POSSIBLE ENVIRONMENTAL IMPROVEMENTS – END OF SPRING TERM 2016**

Dear Ms Skjong,

From a recently arranged meeting of the West Coast Technical College's Student Union, I enclose a report that was put together after the meeting.

A series of possible and necessary changes were brought up at this meeting. The most necessary ones, and probably also the ones that will have the most immediate and positive effects, were included in the enclosed report.

In order to implement some, perhaps all, of these changes and initiatives, we would very much like to meet and explain why we believe these changes to be well worth the rather small financial input necessary. The meeting needs to take place at your earliest convenience, if the changes shall have a chance of both being implemented and having the sought after effect, before the students leave for the summer holidays.

Looking forward to hearing from you, I remain

Yours sincerely,

Niels Nielsen,

Head of West Coast Technical College Student Union
